this title was first published in 2000 one of the most comprehensive overviews of regional development and policy emergence in the central and east european countries to date this book focuses on economic and social cohesion bringing together a wide range of empirical research and discussion material

the bitter u s experience in vietnam and the pain inflicted on the soviet union by its afghanistan adventure have caused washington and moscow to rethink the costs and benefits of unilateral military intervention on behalf of threatened clients especially in the third world also as the cold war winds down the crusading spirit that has driven superpower competition since the end of world war ii appears increasingly anachronistic expenditures by the superpowers in pursuit of military superiority or even to ensure parity are now criticized for the security

they do not provide or for detracting from economic growth the latter criticism has grown in importance as the u s economy has confronted new challenges from japan and germany and as the soviet economy struggles to avoid collapse thus when saddam hussein s august 1990 invasion of kuwait challenged the political and economic status quo in the oil rich middle east neither the united states nor the soviet union responded unilaterally cooperatively they crafted an international consensus to confront the challenge

this volume provides a unique open inter disciplinary dialogue across the humanities and social sciences to further our understanding of the phenomenon of regions and regionalism in a globalized world both at the theoretical and empirical levels what comprises a region what are the different regional dynamic processes that take place what is the relationship between the regional and the global what role does identity building play bringing together scholars from various disciplines within and across the social sciences and the humanities to reflect on these questions the book explores how regions are imagined constructed understood and explained in different academic disciplines each chapter addresses these common questions and uses its own disciplinary lenses to answer them in addition the volume offers interesting reflections on the academic borders constructed in the study of regions thus demonstrating the importance of obtaining insights from both social scientists and humanities scholars in order to better understand the relevance of regions in a complex and globalized world an important work for scholars and postgraduate students in many fields including political science international relations sociology economics geography history and literature as well as for those interested in regionalism and area studies
